PERSONAL STATEMENT

I am an Economics and Statistics graduate conversant with the use of several computer analysis software like; Advanced Excel, SPSS, STATA and R-GUI. This evidently proves my ability to evaluate and conduct quantitative data analysis while encouraging progression in key areas of an organization. Moreover, accounting has impacted in me the necessity of establishing and maintaining financial records that are up to date and reliable for future reference. Additionally, I have worked as a junior researcher hence an understanding of what it takes to perform various data related tasks. My qualifications show without doubt that all assigned roles will be conducted to the required standards.
